DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

Claim Objections

2. Claims 2, 17-27, and 29-39 objected to because of the following minor informalities:

The claims should be changed to make it clear that recited claim terms explicitly refer back to the corresponding "prior acquired images" recited in the claims. The suggested changes are as follows:

In **claim 2**, change "repeating said comparing step using another acquired image" to:
-- repeating said comparing step using another said acquired image --.

In **claim 17**, change "where there is a negative result, the comparison apparatus compares a second photographic image having been created before the pressing of said check start button of the object with said registration images" to:

-- where there is a negative result, the comparison apparatus compares ~~a second~~ one of
the photographic images of the object ~~having been~~ created before the pressing of said check start
~~of the object~~ button with said registration images --.

In **claim 29**, change "in a case where the first comparison result indicates no match, said image comparison center apparatus initiates a second comparison of a prior acquired image" to:

-- in a case where the first comparison result indicates no match, said image comparison center apparatus initiates a second comparison of a one of the prior acquired images --.

In **claim 36**, change "where in a case the first comparison result indicates no match, the method further comprises: initiating a second comparison of at least one image created prior to the pressing of said check start button, comparing said at least one image created prior" to:

-- where in a case the first comparison result indicates no match, the method further comprises: initiating a second comparison of at least one of the images created prior to the pressing of said check start button, comparing said at least one of the images created prior --.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
